ORGANIC PH REGULATOR

WHAT IS BIO-UP?

Bio-Up, it has been designed especially for the organic farming sector.

Biobizz Bio-Up is a humic acids based formulation harvested from natural sources, specially designed for the farming sector.

Correcting pH in a natural way is essential for plants to absorb the maximum amount of nutrients. The natural formulation of **Bio-Up** enables fast pH adjusting of any type of substrate and for any type of crop, without harming the soil micro life. It is designed to work perfectly with the Biobizz nutrients and can be used in every watering. It is suitable to be used during both growing and flowering phase.
